

## MUSIC SOURCE

### *Organise and promote your catalog for sync exploitation*

Maximise the revenue you earn from your catalog by streamlining your licensing process with **Music Source**.

- Centralised digital asset library management
- **Powerful music search**
- Pitch tracks to licensees for sync use
- Create and distribute samplers for marketing campaigns
- Generate management reporting of licensing and marketing activity
- Allow partners anytime access to your copyright information
- Syncs directly with **Music Maestro** and **Record Maestro**

**“I have been looking for a system to bring all of my sync operations into one neat package, both internally and for ease of use for my clients. Music Source achieves this and more, giving me complete control of all of my sync activity.”**

Leopold Whiteley | Head of International Creative | Notting Hill Music

**Music Maestro** and **Record Maestro** — part of the **Counterpoint Suite**, provide leading rights and royalty management software for music publishers, record labels, distributors and digital service providers.

### **Additional modules available\*:**
